

Curriculum Coordinator Report:

December 2024

Professional Development:

- I attended a training at Jeff-Lewis BOCES to provide administrators with information and strategies to support teachers with the new science curriculum and exams.
- Mrs. Heller and I attended the first of two sessions of a training at Jeff-Lewis BOCES on how to support students with behavioral needs through MTSS.
- During the last two faculty meetings, teachers have been engaging in professional development on the implementation of retrieval strategies. Retrieval is a research-based strategy proven to increase student learning and retention.

Data:

- We are beginning to take a deep look at the test data of our special education students. Our goal is to provide increased targeted support for those students to show more growth and move closer to proficiency on grade level tests.

Positive School Culture:

- The elementary school had their family-style Thanksgiving feast. Many commented on how delicious the meal was! The students loved this activity.

Individual Teacher Support:

- Teacher observation schedules are out and observations have begun in the elementary and middle/ high school.
